# RECHARGE YOUR BODY, REVITALIZE YOUR LIFE WITH THE BIOCHARGER™

The BioCharger™ NG is a hybrid subtle energy revitalization platform that works to optimize your health, wellness, and athletic performance by aligning and balancing the energy of every cell in your body.

Each BioCharger™ session bathes your entire body with four distinct harmonious energy fields. These transmitted energies have been proven to restore strength, stamina, coordination, and mental clarity.

With the BioCharger™’s advanced technology, you can target a specific aspect of your well-being by selecting one of over 450 customized “recipes” from our cloud-based library, or even request a custom recipe from our expert development team.

## SUBTLE ENERGY

Subtle energy is all around us, continuously generated by our environment. (Sunlight and electromagnetic waves are examples.) Subtle energy informs and supports our physical bodies,

restoring and balancing cellular function. It is as essential as food to sustaining optimal wellness.

Subtle energy has been known by many names through the centuries—life force, qi, prana. In more recent history, scientists have been studying the effects of this unified energy.

When we lack subtle energy, our cells lack optimal voltage, which can weaken our physical and mental performance, and amplify the effects of injuries, exhaustion and stress.

When we are able to achieve optimal cellular voltage, we feel invigorated and full of health. We experience sharp focus during the day, and renewing sleep at night.

“ BioCharger™ sessions are gentle and rejuvenating. You’re not hooked up to wires. You’re not exerting yourself. You can sit, relax, and know that in about 10 minutes, you’ll be on your way to peak cellular function.

With the BioCharger™, you’ll experience:
